PROFILE

Software engineer with over 3 years of experience designing and building full-stack web applications (Java/Spring Boot, Angular, Laravel, React). Red Hat Certified System Administrator (RHCSA), equally comfortable on the back end (REST APIs, microservices, JWT security) and on the front end and mobile (React Native). Rigorous and results-driven, I am looking to join an innovative team to design reliable, high-performance solutions built around real user needs.

TECHNICAL SKILLS

Back end: Java, Spring Boot, Spring Cloud (API Gateway, Config Server), Laravel (PHP), REST APIs, JWT, microservices

Front end: Angular (Standalone Components, Signals, RxJS), React JS, TypeScript, JavaScript, HTML5/CSS3

Mobile: React Native

Databases: SQL, MySQL — data modelling, query optimisation

Systems & tools: Linux / Red Hat (RHCSA certified), Git, GitHub, IT infrastructure administration and maintenance

Quality & methods: Testing and bug fixing, security and performance, writing requirement specifications and technical documentation, project management and coordination

PROFESSIONAL EXPERIENCE

Software Engineer

04/2024 – 11/2025

IB Space

Tunis, Tunisia

- Designed and developed an API Gateway for user account management: creation, updating and deletion of accounts and their associated addresses.
- Built a multi-format file upload module with extension validation, content processing and automatic calculation of totals.
- Implemented the calculation and management of certificates for corporate clients.
- Contributed to project management: planning, progress tracking and team coordination.
- Wrote technical documentation and trained users and colleagues.

Head of Software Development

11/2022 – 03/2024

Soft Wind Digital Solutions

Tunis, Tunisia

- Led the full development lifecycle of custom web applications: design, development, integration, testing and maintenance.
- Optimised the performance, security and reliability of systems and databases.
- Coordinated with project managers, designers and testers to guarantee the quality of deliverables.
- Delivered projects: FM-Inspection (tracking and inspection application), EHC Dashboard (data visualisation and analytics platform), and a custom digital solution for the Tunisian Football Federation.

PERSONAL PROJECTS (GITHUB)

Online Store — full-stack e-commerce application · Spring Boot · Angular

github.com/khalilboutar1996khalil/boutique-springboot · github.com/khalilboutar1996khalil/boutique-frontend

- Back end: Spring Boot REST API with JWT authentication and role management (ADMIN, SELLER, CUSTOMER).
- Front end: Angular admin interface (Standalone Components, Signals, RxJS) — dashboard with real-time statistics (revenue, orders, customers).
- Full CRUD for products (with image upload), categories, customers and orders; order detail page with a visual tracking timeline.
- Front-end security: routes protected by AuthGuard and an HTTP interceptor that automatically injects the JWT token.

Mobile E-commerce App — React Native

github.com/khalilboutar1996khalil/e-commerce-react-native

- Cross-platform (iOS/Android) e-commerce mobile app built with React Native: product catalogue, shopping cart and checkout flow.

INTERNSHIPS

Software Development Intern — Soft Wind Digital Solutions, Tunis	08/2022 – 11/2022
Full Stack Developer Intern — Welyne, Tunis	02/2022 – 07/2022
IT Department Intern — Socotu (Société Commerciale Tunisienne), Tunis	06/2021 – 08/2021
Intern — Amen Bank, Tunis	07/2018

EDUCATION & CERTIFICATIONS

RHCSA — Red Hat Certified System Administrator <i>TEKUP — Tunis, Tunisia</i>	06/2025
Front-End Developer Certification — React JS <i>GoMyCode — Tunis, Tunisia</i>	06/2024
Bachelor's Degree in Business Computing (Licence nationale en informatique de gestion) <i>ESEN — Higher School of Digital Economy, Tunis, Tunisia</i>	07/2019
